

Benefits of the NABP DMEPOS Program

Durable Medical Equipment, Prosthetics, Orthotics, and Supplies (DMEPOS) Program:

- ✓ NABP has a vast knowledge of both state and federal regulations for pharmacists and pharmacies.
- ✓ The NABP DMEPOS accreditation program is provided at an affordable price to accommodate even the smallest pharmacy.
- ✓ NABP offers independent and impartial accreditation services and is the only pharmacy-specific organization approved for DMEPOS accreditation.
- ✓ In addition to its regulatory expertise, NABP staff members, several of whom are or have been practicing pharmacists, understand the licensing requirements of pharmacies as well as pharmacies' operations and resources.
- ✓ NABP has more than 100 years of regulatory and accreditation experience in pharmacy and holds a respected position in the pharmacy industry, making DMEPOS accreditation a natural extension of NABP services.
- ✓ NABP has a long history of working with the state boards of pharmacy to determine the licensure status of pharmacists and pharmacies.
- ✓ NABP accreditation programs, including the DMEPOS program, were developed to assist pharmacies by streamlining the accreditation process and minimizing disruption.
- ✓ NABP DMEPOS accreditation services are founded on a long history of fostering uniform regulatory and quality standards for the practice of pharmacy and the safe distribution of medicines and related supplies.
- ✓ The NABP Disciplinary Clearinghouse database, which is utilized during the accreditation process, holds detailed information that is provided by the state boards of pharmacy regarding licensure status for pharmacists and pharmacies.
