

## NAPLEX Score Transfer Program

**T**he North American Pharmacist Licensure Examination® (NAPLEX®) Score Transfer Program allows individuals to send their NAPLEX scores to additional jurisdictions in which they wish to obtain a license to practice pharmacy.

- ✓ If all requirements are fulfilled for licensure in the jurisdiction to which the transfer is sought, an individual will be awarded a license by examination.
- ✓ To be eligible for score transfer, candidates must complete all examination requirements, including any locally administered examinations, as required by the state where they sit for the examination. Such states can refuse to allow a candidate's score to be transferred if these requirements are not met.
- ✓ The current fee for score transfer is \$75 per jurisdiction.
- ✓ Score transfers will be processed whether a passing or failing score is obtained.
- ✓ An application for score transfer must be submitted prior to examination date and must be submitted with each NAPLEX registration.
- ✓ Currently, all 54 jurisdictions served by NABP participate in the NAPLEX Score Transfer Program.
